RACK FANS TO INCREASE VENTILATION

High-performance fans to enhance ventilation and protect your equipment from overheating

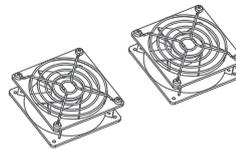

Ideal for racks, the Fan Series prevents overheating, keeping a proper temperature and maintaining equipment's stable operation. The high performance fans ensure high air flow efficiency, increasing the ventilation and decreasing rack's temperature. The fans have long power cord design for flexible application. The products include standard hardware for easy and quick installation. The cold rolled steel material can protect the fans against damages and enhance the product's durability.

SERIES FEATURES

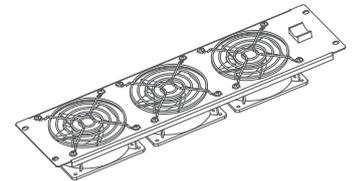

- High-performance Fans
- Ideal for Increasing the Ventilation
- Installation Hardware Included
- High Air Flow Efficiency
- Long Power Cord for Flexible Application
- Cold Rolled Steel with Black Finish
