MAXHUB UC S15

The MAXHUB UC S15 is an all-in-one video collaboration bar with build-in system, designed for huddle rooms and small meeting spaces. The device supports both wired and wireless BYOD along with wireless projection.

Wireless and Wired BYOD

Wireless Content Sharing

4K Camera with AI

AI Noise Reduction

MAXHUB Pivot

3-year Warranty

Effortless BYOM

❯ Plug and Play, wireless BYOD

Easily share content and access the UC S15's camera, microphone, and speaker wirelessly using the MAXHUB Wireless dongle – WT13M* or the MAXHUB Share app.

*Note: WT13M is unavailable in the United States, Spain, and Germany. Additionally, WT13S is not accessible in the US. Please verify availability with your reseller.

❯ Plug and Play, wired BYOD

Simply connect your laptop to the UC S15 using the USB-C cable provided in the product package. Instantly share content on the room display and seamlessly access the UC S15's camera, microphone, and speaker.
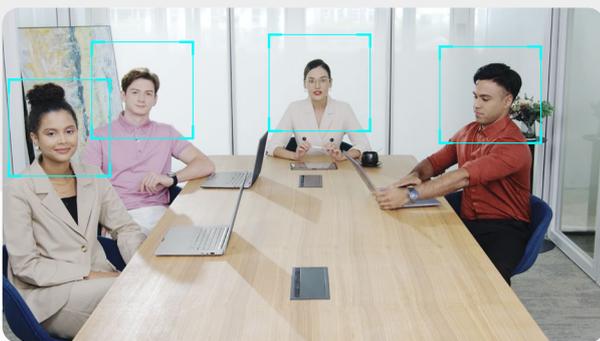

Compact and Simple

The UC S15 is optimized for huddle rooms and small meeting spaces, boasting a compact size and simplified installation.

See and Be Seen, Any Time

❯ Capture Every Detail

Equipped with a 4K camera and a 120° field of view, it captures the whole room with sharp images.

❯ Auto Framing

Automatically offers the best view via tracking of the number and positions of participants.

❯ Speaker Tracking

Dynamically follows the active speaker in real-time, elevating engagement with a lifelike meeting experience.

❯ Intelligent Focus

The display offers individual close-ups for multiple participants simultaneously, delivering an in-person experience.

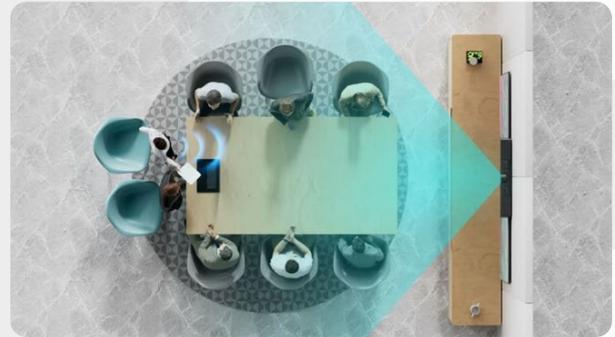

Before

After

Hear and Be Heard, Anywhere

› Attention On You, Wherever You Are

Enhances your communication with 6 intelligent beam-forming microphones, providing full-duplex voice coverage in huddle and small spaces.

› AI Noise Reduction

Filters out noise to improve concentration and enhance collaborative experiences, eliminating background noises, no more tapping, typing, or door closing.

› Immersive Audio Experience

From intimate chats to group huddles of up to 8, our studio-quality Hi-Fi speaker ensures crystal-clear sound for all. With 8 W+3 W power and a specialized tweeter and woofer design, every voice is heard, every corner filled with immersive sound.

Remote Management

MAXHUB Pivot enables IT managers to effortlessly monitor, control, and update all your meeting room devices remotely.
